

# ACCELERATE 2019

APRIL 8-11, 2019 | ORLANDO, FLORIDA  
THE WALT DISNEY SWAN AND DOLPHIN RESORT  
[FortinetAccelerate.com](http://FortinetAccelerate.com)

# WHY YOU CAN'T MISS THIS YEAR'S ACCELERATE

## The Evolution of the Fabric

Learn how we've evolved the Fortinet Security Fabric to deliver the industry's only true end-to-end security platform that integrates advanced technologies like IoT, OT, the cloud, and the network.

## What It Means to "Transform"

Discover how security transformation is now critical to enabling business acceleration in the digital era.

## Connect to the Cloud

Find out how Fortinet is leading advancements in cloud connectors that enable true multi-cloud environments across public, private, SaaS, and hybrid cloud computing that drive incredible performance advantages while decreasing TCO.

## SD-WAN to Win

Understand why Fortinet's SD-WAN was so highly recommended by NSS Labs, how it's the only SD-WAN solution with built-in security, and is a top performer as branch networks see increasing volumes of cloud, VoIP, and video traffic.

## Machine Learning and AI

Learn why there's lots of talk but little delivery on AI and machine learning, and how Fortinet, which has been developing AI/ML-enabled threat intelligence for years, is making it a reality—giving customers a critical edge in the battle against the unknown.

## Automation: Speed Plus Efficiency

Realize how Fortinet can enable you to do more with less while getting faster and better at protection by automating tasks and threat-intelligence sharing.

### Analytics for Security Navigation

Discover how you can track and manage your risk posture in real time using built-in platform controls based on compliance regulations and security standards.

### Securing Critical Infrastructure

Learn how OT and IT security are merging to battle common enemies and how OT can deploy security strategies that truly ready the infrastructure.

### Take Control of IoT

Get visibility into your entire portfolio of ever-proliferating IoT devices and institute the network access controls needed to protect these difficult-to-protect devices.

### 50+ transformative sessions

You'll learn how to use Fortinet solutions to secure the network, the cloud, and the endpoint.

### Fortinet's technology roadmaps

You'll discover how Fortinet's industry-leading innovations will ensure your investments will continue to be the most effective on the market.

### In-depth NSE training

You'll have the opportunity to get hands on with key Fortinet products in preconference workshops. This year we've expanded it to two days!

### Free NSE exam

You'll receive an NSE exam voucher to use during the conference. Choose any exam from NSE 4 to NSE 7 including the new NSE 7 Solution Architecture exams:

*Enterprise Firewall Security, Advanced Threat Protection, Secure Access Architectures, Cloud Security.*

### More is more when it comes to our Tech Expo

You'll interact with a Tech Expo that's bigger and includes more technologies from our partner ecosystem than ever before.

### Star Wars

You read that right! You'll join us for our Epcot Experience Event where you'll experience the fun and excitement of Star Wars through immersive décor, character interactions, and iconic music—Cosplay anyone?

### LESS DOUGH FOR MORE INFO

Reduced registration rates and more knowledge than ever before! Reach out to your account executive to purchase tickets now!
