

Chris Ramsey, P.E.

Chris Ramsey is a Senior Engineer at Wood Environment & Infrastructure Solutions, Inc. He received his Bachelor of Science in Civil Engineering from the University of Cincinnati. Chris is the Team Lead of the Geo-Structural Design Group as part of the Infrastructure Engineering Design Division. As Senior Engineer, he performs foundation and pile cap design, deep foundation designs, ground modification, underpinning, permanent and temporary retaining wall and shoring designs, finite element analyses, as well as slope stability analyses and designs for repair. He is a licensed PE in five states (Connecticut, Ohio, Pennsylvania, Tennessee, and West Virginia) and the District of Columbia. Chris is an active member of the Deep Foundations Institute, ASCE and Geo-Institute. He is the current chair of the DFI Technical Committee for Deep Foundations for Landslide and Slope Stabilization. Chris is also a past president of the ASCE Cincinnati Section.
